Dear Member.

ESTABLISHMENT OF MEASURES TO EASE DOING BUSINESS IN THE TOURISM SECTOR IN KENYA

The Government is in the process of establishing measures needed to ease doing business in key sectors – including tourism. Towards this end, the Industry has been requested to identify the major hinderances to operations in the sector and propose workable solutions.

We urge members to take advantage of this opportunity and send details of their key "pain points" in the attached Format. Each issue forwarded should have a clear indication of the required interventions to address the identified challenge.

Please treat as urgent and send your recommendations by Sunday 15th August, 2021.

Kind regards,

Fred Kaigua, ACI Arb, CPM
CHIEF EXECUTIVE
